I consent to participate in this project, the details of which have been explained to me, and I have been provided with a written Plain Language Statement to keep.

1. I understand that this research aims to investigate how meaning varies across languages.
2. I understand that my participation in this project is for research purposes only.
3. I acknowledge that the possible effects of participating in this research project have been explained to my satisfaction.
4. For this project, I will be required to answer demographic questions, a vocabulary test, and participate in a word meaning judgement task.
5. I understand that my participation is voluntary, that I am free to withdraw from this project anytime without explanation or prejudice, and that I am free to withdraw any unprocessed data I have provided.
6. I understand that my raw data without any de-identified information will be stored at the University of Melbourne for a period of five years and will be made publicly available within a period of 12 months of publication.
7. I have been informed that the confidentiality of the information I provide will be safeguarded; my data will be password-protected and accessible only to the named researchers.
